

## De Havilland Model Railway Society

### FRY'S HALT (00 Gauge)

Fry's Halt was built by one of our newer members who had no practical experience of building layouts as his first layout. Ably assisted and guided by a few of the other club members this layout is the result of less than year's work (unlike other layouts in the Society!). Since it's original appearance at an exhibition it's been further enhanced with a realistic backscene and the addition of third rail throughout.

Size: 28 feet x 6 feet, Including operating space.

Scale: 00

Requires: 13amp power outlet

4 Operators

Insurance Value: £6000

This layout is available for exhibitions.
